

Red China Tells Of RFK Death

After 3 Days

TOKYO — (UPI) — After three days the rulers of Communist China told their people Sen. Robert F. Kennedy had been shot and killed.

Peking Radio said the assassination was "the outcome of a political and economic crisis the U.S. bourgeoisie capitalism is facing as a result of a defeat in the Vietnam war."

The broadcast said the killing of the senator and President Kennedy, showed the "utter rottenness of U.S. imperialism's democracy in the freedom to kill for power."

The death of the senator also showed the "national collapse that is mounting day by day and a people's revolt within the nation against the ruling class," Peking Radio said.
