PASADENA, Calif. AP -
The older brother of Sirhan Bishara Sirhan, on trial for the killing of Sen. Robert F. Kennedy, was struck by a car near his home Thursday.

Doctors at St. Luke's Hospital said Saidallah Bishara Sirhan, 36, may have suffered a broken right leg and a fractured skull.

Police said Sirhan apparently walked into the side of a small foreign car, moving about 35 miles an hour through a crosswalk.

Sirhan, an unemployed screw machine operator, reported being shot at last July, a month after Kennedy was shot in Los Angeles.
