

Clue Naming Ray Is False

MAHANoy CITY, Pa., May 27 (UPI)—A routine check of the dental charts of the accused assassin of the Rev. Dr. Martin Luther King Jr. confirmed Monday that he was not killed and buried in a shallow grave near here. The police and Federal Bureau investigators never thought he was, but they made the dental comparison in following one of the "Hundreds and hundreds" of leads into the disappearance of the suspect, James Earl Ray.
