Dita Now 'Out of Danger'

DENVER — (UPI) — Lobbyist Dita Davis Beard was reported "out of danger" today, and doctors said she should be able to answer questions by Monday about a settlement involving the International Telephone & Telegraph Corp. antitrust case.

Dr. L. M. Radetsky said

Mrs. Beard, 53, had "passed the danger point." She has been hospitalized since Friday at the Rocky Mountain Osteopathic Hospital for treatment of a heart ailment.

"We want to keep her out of the firing line until she gets perfectly relaxed about the whole thing," Radetsky said.
