

Secret Meetings Of Local Nazis

By Donovan Bess

Allen Lee Vincent, the ex-con who heads the local Nazi unit, told yesterday how the Bay Area group meets every week in secret.

He said the local Nazis put on uniforms once they are inside the building and frequently practice military-style drilling.

Do they carry guns?

"No excessive arms," he said, just sidearms "that might be necessary for self defense in case undesirable elements try to disrupt us."

The heavy-set Northern California leader of the racist National Socialist White People's Party was interviewed in his apartment at 463 43rd avenue.

PHOTOS

Hanging on the wall behind him was a huge poster of a swastika, photographs of Adolf Hitler and of scenes in the 1930's of Nazi ceremonies and of exuberant Nazi youth.

Vincent claimed that about 200 men and women are members of his white supremacist party "and that includes a retired Marine lieutenant general and a retired Air Force major, and lawyers and teachers."

But no physicians, so far, he said, and no policemen — "but there are some policemen who are very sympathetic."

He claimed that Marine Corps drill instructors secretly have been helping the Nazis in drill practices.

KNUCKLES

The younger party members, he said, try to keep in top shape physically, and "they do forty pushups a day, on two knuckles."

He said he works full-time for the party, and receives a salary from the national headquarters in Arlington, Va. The organization here is financed from Arlington as

well as from contributions from members, he said.

DANGEROUS

A middle-aged Nazi colleague of Vincent, who uses the pseudonym "Jim White," said it is too dangerous in San Francisco to have meetings in the open at this time.

"In Los Angeles," he said, "several high school students wear brown shirts and the swastika armband to school. In San Francisco guts."

that would take plenty of

WOMEN

The Bay Area local has a women's auxiliary, and the red-white-and-black "white power" T-shirt is especially popular with them, he said.

"We're against women's liberation," said Vincent. "The three Jewish lesbians that started it are a manifestation of the Jewish attempt to overthrow nature."

He also was critical of the John Birch Society. That right-wing organization's goals, he declared, "are strictly Kosher — they mean well but their main interest is not racist, but lies in property and money."

As for the current scene in Washington, D.C.: "It's one gang of Jews against another gang, because Nixon is the tool of Henry Kissinger, who is a Jew."

Vincent's Nazi unit surfaced on Wednesday because of complaints against a two-minute recorded telephone message given to persons who dial the number of a phone at his apartment. The message is abusively racist.

Pacific Telephone Co. officials noted that the message is protected by First Amendment guarantees of free speech.
