The Committee's work is premised on the following assumptions:

The Committee shall currently concentrate on the Kennedy-King-Kennedy assassinations, leaving open its options, however, on several other mysterious deaths.

As to the assassination of President Kennedy, there was a conspiracy in Dallas; and the most pressing problem at the moment is to positively identify the several "actors" in Dealey Plaza.

As to the King killing, James Earl Ray appears to be either a hired gunman or a "patsy", all of which means a conspiracy.

As to the Robert Kennedy killing, there are footprints which point toward conspiracy; however, these footprints appear not to be under investigation by law enforcement; hence, we shall investigate them.

As to a possible inter-connection between the three slayings, the most that can be said at present is that there are a number of parallels in the cases which might indicate a common modus operandi which normally would be subject to official scrutiny.

The Committee will cooperate fully with all law enforcement and looks forward to the day when a proper investigation will be made by the authorities.
