Peace Meet Uneventful

Washington (UPI) - Many thousands of America's young faced the White House for three hours in sweltering heat yesterday, applauding demands for a general national strike to "cripple the war machine" and hasten the end of U.S. involvement in Southeast Asia.

.....

Police restraint and the pleas of the demonstrators' own marshals for order averted violence.....

By late in the afternoon, there were 10 arrests. Eight persons, who police said were members of the American Nazi Party, were charged with disorderly conduct, and two persons frolicking in the reflective pool on the mall to cool off were charged with indecent exposure.
