

GOP Asks McG Bond On Demonstrators

LOS ANGELES — (AP) — President Nixon's campaign officials in California want Sen. George McGovern to post a \$1 million bond to cover any damage caused by demonstrators during Nixon's appearance here Wednesday.

Gordon C. Luce, vice chairman of the California Committee for the Reelection of the President, pointed out that Democrats had admitted the demonstration backers had used telephones at the senator's campaign headquarters.

"George McGovern must take responsibility for the demonstration which his campaign has started," Luce said yesterday.

"Posting a \$1 million bond is the least he can do to show good faith toward the many Americans who will not take part in the demonstration."

Fred Epstein, press aide for McGovern here, said the activists were told to stop using the telephones after using them for two nights.
