

Notes on People (byline, Albin Krebs)

The movie sleeper of the week in Washington stars Richard M. Nixon. It's an oldie, actually, made the night of Sept. 23, 1952, and it's called "Nixon's Checkers Speech." Playing at the Inner Circle theater, the movie is packing in youthful audiences just five blocks from the White House. Most of the young people were no doubt babies or not even born when the original was shown live on television.
