by Lou Cannon

Buffalo, N.Y., Oct 16 - Sargent Shriver concluded his speech [today] with a personal attack on President Nixon, whom Shriver compared to a "leopard that doesn't change its spots."

"He's still the same Nixon he always was," said Shriver. "He may dress like a President, look like a President, talk like a President, act like a President, walk like a President - but it's still Nixon."
