## On Purchase Of Nixon Home

Washington

Details of the financial transaction by which President Nixon acquired his Pacific Coast estate will be made public today, the White House said yesterday.

The White House provided information on the transaction when it occurred in 1969 but agreed to furnish more detailed information following a report in The Register of Santa Ana, Calif., that leftover funds from the 1968 Nixon campaign may have been used to finance it.

Press Secretary Ronald Ziegler has called the story a "total fabrication and hoax."
