Nixon  
(drinking heavily?)

8 Feb 75

Maxine Cheshire, appearing on Mike Wallace show/with several others, says she has evidence Nixon was drinking heavily at Camp David (no date), but WXPost did not carry it because she could not find a second source.

Jack Anderson, also on the program, says he did write the story (do not have in file) because he was satisfied he had the proof that "Nixon was going away for long weekends up to Camp David with Bebe Rebozo . . . that they were sitting there drinking very heavily. I thought that [at] this point it becomes news."
