(On second appearance of Marina Oswald before Warren Commission)

The commission heard testimony June 11 from Mrs. Marina Oswald, widow of the man accused of murdering Kennedy in Dallas Nov. 22. In her second appearance, Mrs. Oswald was questioned closely about her previous allegation that Oswald had planned to assassinate former Vice President Nixon.

Before her latest testimony, the New York Post stated that the widow would be asked to "explain discrepancies in her previous account of her husband's activities before the assassination." After she left, however, a commission spokesman said Mrs. Oswald "was questioned about a report that her late husband threatened to kill Nixon." The spokesman refused to elaborate.
