

*European
Press Interest
In Davis Wanes*

LONDON — (AP) — Europe's press and political parties, Moscow excepted, are paying scant attention to the trial in California of black revolutionary Angela Davis on charges of murder, conspiracy and kidnap.

Western Europe confines itself to brief, factual reports of the trial. Communist satellites are for the most part silent.

Moscow's press sees the San Jose proceedings as a "mockery of justice," symptomatic of American "racism and reaction."
