## **Soviet Spy's Affair With FBI Man**

New York

A female operative of the Soviet intelligence agency infiltrated the FBI in 1968 by becoming romantically involved with an agent, Time magazine said yesterday.

Quoting CIA sources in Moscow, Time said officials of the KGB were jubilant that one of their agents, described as a middle-aged waitress, had become involved with an FBI agent.

The FBI later broke into the woman's apartment and found bureau manuals and reports, Time said.

High FBI officials stopped the inquiry into the affair to avoid embarrassing the bureau, and the agent was allowed to resign, Time said.
