

Eric Norden, telephone conversation with Joe Dolan, 28 July, 1967.
(Not verbatim.)

Speaking of assassination of Malcolm X: Only one force in the
U.S. which could send out the word that Malcolm
had to be liquidated was the CIA.

U.S. agencies are deciding which Americans live or die; we are
coming to 1984.

Speaking of Garrison: He definitely is on the track of
something.

Norden is writing article on Garrison and his investigation.
