

17 May 72

From story by Hobart Rowen, Washington Post Service, on sudden resignation of John Connally as Secretary of the Treasury
16 May 72:

..... One story, unconfirmed, linked the hasty decision with the attempted assassination of Governor George Wallace. According to this report, the memories of the assassination of President Kennedy in 1963, when Connally (then Texas governor) was seriously wounded brought pressure from Mrs. Connally for a quick return to Texas.
