Bremer-Wallace

BALTIMORE AP - Arthur H. Bremer's plea for dismissal of federal charges against him stemming from the May 15 shooting of Gov. George C. Wallace of Alabama will be heard in U.S. District Court July 7, the federal judge said Monday.

Chief Judge Edward S. Northrop set the hearing on that pretrial motion and five others filed by Benjamin Lipsitz, the court-appointed attorney for Bremer.

Lipsitz is to renew his arguments on the state level Wednesday at a hearing in Prince Georges County Circuit Court. The attorney contends the state and federal charges overlap and that only one jurisdiction should be assigned the trial.

A total of 46 witnesses have been subpoenaed by Arthur A. Marshall Jr., Prince Georges County state's attorney, for the July 12 trial in the state court.

Although the witness list includes Wallace, Marshall said Monday he does not expect him to appear and can present his case without the governor's testimony.
