Schultz Says U.S. Hides Data on Plot to Slay Wallace

By JAMES T. WOOTEN

WASHINGTON, Sept. 14—James T. Schultz, a conservative Republican, said today that the Federal Bureau of Investigation had been instructed to hide information about the assassination of Gov. George Wallace. He said that the FBI had been instructed to hide information about the assassination of Gov. George Wallace. He said that the FBI had been instructed to hide information about the assassination of Gov. George Wallace.

James T. Schultz, conservative from California, talking to reporters Tuesday in Washington.

It was accompanied to the news conference by Dan Stang, the author of the article and Tracy K. Heiman, one of the sources of information cited in the article.

Mr. Stang, a 27-year-old resident of Milwaukee, said that as an undercover operative for the Milwaukee Police Department, he saw Mr. Bremer at three separate meetings of the Marquette University chapter of the Students for a Democratic Society in late 1969.

Mr. Stang said that Mr. Heiman had recently been dismissed by the Federal Bureau of Investigation and Burger's spokesman for the University said he had no record that Mr. Heiman had ever been employed there.

He said he would not be any closer to Mr. Bremer's alleged involvement with the assassination of Governor Wallace.

Milwaukee Police Supt. MILWAUKEE, Sept. 14—Aked M. Heiman had worked as an underground operative for the Milwaukee Police Department, a department spokesman said.

Even if he could be traced, he would be unable to tell you what he understood about it. It would show our cities, but a lot of people call and give us information and then call them away our underground agents. However, sources in the Marquette University chapter of S.D.S. said that Mr. Heiman attended those meetings but was suspected almost at once of being an undercover operative and was asked to leave.

The student sources said they did not believe Bremer attended any meetings.

One source said that Mr. Heiman was asked not to attend further meetings of the chapter when he was seen making a telephone call, believed to be to a police officer, after one meeting.

Arthur Heitzer, a former president of the chapter, said, "He went to some meetings, but after a short time he was invited out." He said Mr. Heiman could not have known of any "conspiracy" because it was obvious he was a plant, and nobody was talking to him.
