Milk price supports - See entry 6 Sep 73, Executive privilege (milk price supports).

U.S. District Judge William B. Jones indicates he will allow attorneys for Ralph Nader's Public Citizen, Inc. to have access to bank records concerning contributions to the Finance Committee to Re-elect the President (sic), as long as they do not make the records public.

"The action came in a suit by ... Public Citizen, Inc., attempting to force the government to rescind a milk price support increase. [The suit] claims that then-Secretary of Agriculture reversed himself and raised milk support prices after three dairy co-ops gave more than \$300,000 to President Nixon's re-election campaign."
