Ervin committee (WH tapes and documents) - Ervin committee votes "unanimously" (Baker, Burney, Montoya not present) to subpoena tapes and documents of at least 200 conversations between Nixon and WH and campaign advisers relating to Watergate; Dash tells reporters subpoenas probably will be served tomorrow, and that if Nixon lawyers refuse to accept the subpoenas the committee will attempt to serve Nixon personally.

Nixon (improvements made at San Clemente, Key Biscayne) - GAO auditors, in 99-page report, suggest that Nixon should have paid personally for some of the federally financed work done at San Clemente and Key Biscayne. "[The report] disclosed that Mr. Nixon himself, his White House aides, ... Rebozo, his lawyer and his architect were involved in ordering or approving many of the projects that presidential spokesmen said previously were done at Secret Service request. .... Nowhere in the report did the GAO suggest that Mr. Nixon now be billed for any work already paid for by the government." See story for details of various improvements.

Nixon (California income tax) - Kenneth Clawson says Nixon "can't remember" if he paid any California income taxes ~~when~~ ~~hezz~~ during the period of 1946-60, and that WH officials have no intention of searching records to determine whether or not he did.

Impeachment - Republicans on House Judiciary Committee call for a timetable for investigation of grounds for possible impeachment. Rep. Peter Rodino, committee chairman, "has turned aside all criticism of the pace of the investigation by declaring that no decisions about how it is to be conducted can be made until the special counsel is on the job."

Dita Beard - "The Watergate special prosecutor has decided not to call Dita Beard as a witness before the Watergate

grand jury, following two psychiatric examinations [of her].  
.... The psychiatric examinations became known [today] when  
... Judge Sirica ... unsealed a 'stipulation and order' that  
was filed by the special prosecutor's office last month."  
Story gives no dates for the psychiatrists' examinations,  
and no date for decision not to call her. (Jaworski was  
sworn in 5 Nov.) Story is unclear but seems to imply that  
only two doctors were involved, one appointed by the court  
at Jaworski's request and the other selected by Mrs. Beard;  
no names are given. "Sources close to the investigation"  
say the psychiatrist appointed by the court has concluded that  
Mrs. Beard would not testify and "generally supported the  
contention of Mrs. Beard's psychiatrist that she would not be  
a valuable witness."

Mrs. Beard has lived in Denver since (March?) 1972 and is  
still employed by ITT in "sales research."

"White House Press Corps 'Grounded'" - "Citing the energy  
crisis, President Nixon has ordered aides not to arrange a  
charter flight for White House correspondents who want to  
cover his planned post-Christmas vacation in Florida."  
In the past such charters have been arranged for by the WH,  
with news organizations paying for the charter.

Warren says Nixon has not decided how he will travel to  
Florida; may take a train but is also considering other  
means, presumably including use of a smaller plane than  
Air Force One.

Nixon, travel to Florida - see entry above.

(Chotiner)

Election violations/- GAO says it has found three apparent  
violations of law in payments by CREP to two journalists  
serving as campaign spies, Seymour Freidin and Lucianne  
Goldberg; payments made by Chotiner totalled about \$35,000.
