"Richard Nixon's Royal Lineage" - Burke's Peerage ("the 150-year-old reference work on England's nobility") says Nixon (UPI's wording:) "has royal blood. He is a direct descendant of King Edward III of England, is related to Queen Elizabeth II, to Sir Winston Churchill and to George Washington. Mr. Nixon is 20th in line of descent from Edward III, who died in 1377."
