Ford this week quoted him as saying that he pardoned Mr. Nixon because Mr. Nixon would go off the deep end." [1:5.]

Former President Nixon's physician, Air Force Major Gen. Walter Tkach, said that Mr. Nixon had developed a new blood clot and an attack of painful phlebitis in his left shortage of last winter and spring. The August decline put the index almost 2 per cent below the peak it reached in October, 1973, before the Arab oil embargo. [1:7.]

Spokesmen for President Ford declined for the sixth consecutive day to say specifically how reports of former President Nixon's poor health figured in the President dent's decision to pardon Mr. Nixon only a few days after he indigated he would await legal moves before making a decision. A member of Congress, who visited president of Ford this week motor of the control of the
