

The Major Events of the Day

International

Senator Henry M. Jackson in an announcement made at the White House, said that President Ford and Congress had formally agreed on a compromise to provide trade benefits to the Soviet Union. In return, he said, there will be a substantial relaxation in Moscow's emigration policies. Secretary of State Kissinger said he had assurances from Moscow there would be an end to harassment of would-be Soviet emigrants and Senator Jackson said he understood this to mean that at least 60,000 Jews and others could leave the Soviet Union annually. Passage of the trade bill is expected soon after Congress returns from recess on Nov. 18. [Page 1, Column 5.]

In Moscow word of the compromise agreement on Soviet emigration was greeted with surprise by many of those who were told of it by Western newsmen. A number of those who have sought to leave the Soviet Union for Israel were skeptical that Moscow would keep its part of the bargain. Others worried whether those Jews now in jail for trying to emigrate or Jewish scientists already refused exit visas would be permitted to leave. [1:4.]

In Paris Baron Edmond de Rothschild has uncovered a scandal involving the Israel Corporation that has rocked the State of Israel and has damaged that country's foreign fund-raising efforts. The discovery was that unauthorized foreign deposits had been made in the International Credit Bank of Geneva, a bank in financial trouble. [1:1-2.]

National

Vice President-designate Nelson A. Rockefeller has disclosed that as a result of an Internal Revenue Service audit of his Federal income and gift taxes for the last five years, he must pay an additional \$820,718 in income taxes and an additional \$83,000 in gift taxes. [1:8.]

Richard M. Nixon told his counsel, John W. Dean 3d, on March 17, 1973, to "cut" the Watergate scandal "off at the pass" by putting out a story that would "basically clear the President." This conversation was on a tape played to jurors of the Watergate cover-up trial and indicated that Mr. Nixon was aware of the break-in at least four days earlier than the date he said he first learned of the affair. [1:6-7.]

CORRECTIONS

An article on the First Boston Corporation in Thursday's New York Times incorrectly stated where the company's headquarters is situated. The company is based in New York.

A number of words were omitted yesterday from the text of one of the questions in a resolution of inquiry that figured in President Ford's appearance before a House Judiciary subcommittee. A corrective article appears on Page 14.
