Send Him Back

Editor — Despite the universal demands for an explanation of who, what, when and where, Richard Nixon has decided instead that it's more important we should know "what's right about America." His past speeches protesting innocence and ignorance, for all their vagueness, have needed daily re-interpretation to explain away conflicts with the day's revelations.

Perhaps we, the President's employers, should send him to Camp David until he produces a satisfactory report.

DAVID L. JOHNSTON.
Berkeley.
