

Report of Nixon Mideast Trip Denied

New York

President Nixon has ordered tentative plans made for a trip to the Middle East in April, CBS News reported yesterday. But Secretary of State Henry Kissinger de-

nied it.

A radio report from CBS White House correspondent Dan Rather said the visit currently is scheduled to include stops in Egypt and Jordan, with one in Israel

expected to be added to the list.

Asked about the report last night, Kissinger said, "There are no plans. It won't happen."
