**Nixon Prepares Talk
On Health Insurance**

KEY BISCAYNE, Fla., May 19 (UPI) — President Nixon worked part of the day on a 15-minute radio speech on health programs that he will deliver at 12:07 P.M., Eastern daylight time, tomorrow, the Florida White House said today.

The speech is expected to focus on the key points of his comprehensive health-insurance plans that officials say would protect Americans from being swamped by huge medical bills.
