**SECRET PANEL DATA
HELD PERIL TO NIXON**

HARTFORD, June 22 (AP)—
Representative John Conyers
Jr., Democrat of Michigan,
member of the House Judiciary
Committee, says the panel has
heard evidence of "numerous
impeachable offenses" by Presi-
dent Nixon that has not been
made public.

"The overwhelming amount
of confidential material that is
damaging to the President or
could be construed as not fa-
vorable to the President has
not ever been revealed," Mr.
Conyers said.

"An impeachment article
should have been sent to the
Senate already," he said, on
the ground that Mr. Nixon "has
impaired the constitutional
process of impeachment to such
an extent that it may never be
workable against any future
President."

Mr. Conyers was interviewed
on a WPOP radio program,
"Newsbeat," to be broadcast
tomorrow.
