

MASQUERADING OF EVENHANDED JUSTICE

Let Him Without Sin Cast The First Stone!

American practices and procedures concerning our Grand Jury system of indictment leading to a trial jury are part and parcel of the Constitution.

The Democratic and Republican signers of this statement were shocked by a Grand Jury naming the President of the United States as an unindicted co-conspirator in the Watergate fiasco. THAT WASHINGTON GRAND JURY WAS SELECTED FROM THE CITY WHICH IN 1972 VOTED 78% AGAINST MR. NIXON. Could a more blatantly prejudiced and unfair Grand Jury be found anywhere in the United States? This grave injustice has been aggravated by a large part of the media who have been and still are obviously seeking to get rid of President Nixon by fair means or foul. For example, the June 17th Newsweek devoted an entire page in headlines to such a deceptive assertion as: "THE JURY NAMES NIXON." Have you fellow citizens seen any rebuttals in your newspapers, magazines or on TV. Or have you read or heard the facts about the Washington Grand Jury? Probably not. As Claire Luce said: "What sickens me is the hypocrisy of it all. The press itself is a gigantic bugging machine which has invaded everyone's privacy." The media investigators, prosecutors and some members of Congress, are ignoring truth, decency and omitting the fact that President Nixon has not been proven guilty of bribery or treason, or any other high crimes and misdemeanor. Furthermore, the unjust and underhanded attacks on the President are propagated through a cascade of leaks and improper statements.

Every fair-minded lawyer knows that no member of the Grand Jury had the knowledge, capacity or time to write out a long list of criminal charges against the President. It was the work of one of more biased prosecutors probably with the knowledge and consent of the chief prosecutor in obtaining the signatures of 19 overwhelmingly, if not totally, anti-Nixon Grand Jurors. It was a travesty of justice obviously to poison the minds of the American people. Fair-minded Americans believe in a fair trial and justice for all. How can any of the defendants in the Watergate trials, all of whom are Republicans and most of them associated or friends of the President, get a fair trial in Washington, D.C. **where 78% of the people voted for McGovern?**

Is not Ehrlichman and his lawyers justified in asking for a new trial on account of the alleged prejudice of the jurors and the security of the nation. This is the main reason for the existence of all governments. No judge should refuse a change of venue in view of the demonstrated partisanship and prejudice to say nothing of the questioned impartiality of some of the jurors.

Justice must be evenhanded in the interest of all of the American people and of the United States or it is not justice. It then becomes as in this case, a partisan propaganda trick to smear and destroy the presidency and our three separate and coordinate branches of government. Has the flame of liberty burned so low that the Grand Jury has become a puppet for the prosecutors? Abraham Lincoln said: "Neither let us be slandered from our duty by false accusations against us, nor be frightened from it by menaces of destruction or our government, nor dungeons to ourselves."

Can there be fair and impartial justice among the leftwinged Democrats on the House Judiciary Committee who received large campaign contributions from organized labor? Footsteps of partisan foxes and the political chicken coop is not impartial justice. Will they impeach the President without any proven charges of corruption, bribery or treason, using minor, inconsequential and partisan issues? Let any Democrat or Republican without sin cast the first stone. Former President Kennedy wrote, the vote of Senator Ross against the impeachment of President Andrew Johnson "may well have preserved for ourselves and posterity, constitutional government in the United States." If "the true administration of justice is the firmest pillar of good government" then such unprecedentedly biased indictment, findings and propaganda are undermining our system of jurisprudence, our constitution and jeopardizing our liberty and freedom, the very foundation on which this nation has been built. As Alex deTocqueville said: "If ever the free institutions of America are destroyed that event may be attributed to the unlimited authority of the majority." God bless and preserve America.

The silent majority, friends of President Nixon are urged to attend the international dinner tribute to the President on Thursday, July 18 at 7 p.m. at the Shoreham-Americana Hotel in Washington, D.C. to hear the other side of the coin in Washington.
