**White House
Press Moving
To a School**
SFCronicle
San Clemente

The White House press corps, evicted from the San Clemente Inn, will be using the Concordia elementary school where President Nixon votes as its new press room.

Telephones were installed in a classroom in the school yesterday for use of the press room today by reporters following the President's signing of an agreement with Spain.

The owner of inn, Paul Presley, decided on the grounds of economics and the uncertainty of presidential visits to dismantle the press room in the basement.
