HAVANA BROADCAST CALLS NIXON 'ENEMY'

MIAMI, Aug. 9 (AP)—A Havana radio broadcast today reported the departure from office of President Nixon by saying: "Now the turn has come for the Yankee President to quit, drowned in the dirty waters of Watergate."

The broadcast monitored in Miami, said:

"Richard Nixon, a man of reactionary ideas, a furious anti-Communist, a very strong supporter of private capital and monopolist enterprises, a personal enemy of Cuba and her revolution, has been compelled to abandon the White House two years after the Watergate scandal."

Special to The New York Times

PANAMA—The Government-controlled newspaper "Critica" said today of the Washington developments that "a localized scandal was symbolic of the loss of prestige of a form of government and an empire that is moving toward decadence." However, the newspaper did not speculate on what effect the President's resignation might have on the talks between Panama and the United States on a new canal treaty.
