WXPost SEP 2 1 1974 Inquiry Is Asked

Washington Post Staff Writer

Special Prosecutor Leon Jaworski asked yesterday for an official court inquiry to determine whether former President Nixon is too ill to testify at the Watergate cover-up

Mr. Nixon is scheduled to enter a hospital in Long Beach Calif., early next week — most likely Monday—for tests and treatment of a recurrence of phlebitis, sources in the San Clemente compound said vectored.

Jaworski suggested that U.S.
District Court Judge John J.
Sirica first call in Mr. Nixon's
lawyers for a report on his
condition and then, if necessary, appoint a team of medical experts to examine the ex-President in California.

Sirica took no immediate action on the proposal, but he did reject a request by former White House aide John D. Ehrlichman for a trial delay because of public reports concerning Mr. Nixon's poor

health. Both Jaworski and Ehrlichman have subpoenaed Mr. Nixon to testify at the cover-up trial which is scheduled to

In a three-page motion opposing any postponement, the Watergate prosecutor. said there was "presently no sound basis" for concluding that the former President's health is so precarious that he will not be able to take the witness stand able to take the witness stand

during the prolonged trial.

Jaworski acknowledged,
however, that Mr. Nixon's condition was a valid concern and said that "the government has just as much interest in securing Mr. Nixon's testimony" as Ehrlichman does,

Federal marshals served two other subpoenas on the former President at the same time.

One involved a civil suit brought by Henry Rothblatt, the former lawyer for four of the original Watergate breakin defendants, on the grounds that his clients were pressured into firing him.
