

Ziegler's Diagnosis On Nixon

San Clemente

Ron Ziegler said yesterday that Richard Nixon is "not very well" and that the former President's left leg is still swollen with phletibis.

He said Mr. Nixon's spirits are sagging as he waits to hear whether he will be called to testify in the Watergate coverup trial of his former aides.

The remarks of Ziegler, Mr. Nixon's onetime press secretary, came as the Watergate coverup trial in Washington heard reports that Mr. Nixon's health is rapidly improving.
