In Scandal: Saxbe

NEW YORK, Feb. 9 —
Former Attorney General
William B. Saxbe said in
an interview published
here today that Richard
M. Nixon personally—and
unsuccessfully — pressured him to intervene in
the Watergate scandal on
the side of the former
President.

Saxbe, who became Attorney General at the
height of the Watergate
scandal in late 1973 and
has since been named ambassador to India, was
quoted by People magazine as saying "Nixon himself felt that I should get
involved in his defense at
the Justice Department.
This was the first approach — directly by Mr.
Nixon.

"He called me over and
we sat and talked about
it."
