## Ziegler Calls Off Campus Lectures

### Washington

Former White House press secretary Ronald L. Ziegler has canceled his campus lecture series on grounds he does not want to be on the "Watergate speaking circuit," Washington sources said yesterday.

The sources said Ziegler has written a letter to the Colston Leigh Lecture Agency of New York, informing the firm that he was canceling out on a schedule of campus appearances planned for this spring.

There also were reports that former President Nixon was unhappy with Ziegler's intention to begin a lecture tour on which Watergate would obviously be the main focal point.

In canceling out, the sources said Ziegler was giving up some lucrative appearances. Mr. Nixon was said to be miffed that so many former White House aides have been making money by speaking out against his administration.
