

No Evidence Thus Far of A Conspiracy

WASHINGTON (A P)—
Attorney General Ramsey
Clark said today the FBI is
investigating every possible
angle in the shooting of Sen.
Robert F. Kennedy—including
the possibility of conspiracy.

But he added at a news
conference, "according to in-
formation that I have at this
moment, we have no evidence
of conspiracy."

Clark said the FBI has re-
ceived wirephoto copies of the
suspect arrested in the shoot-
ing but it is "very difficult to
make a precise scientific com-
parison from a wirephoto re-
production."
