(Discussion of innocent plea by Sirhan Sirhan.)

Eason: But you know the part that I'm worried that won't come out?

Caller: What's that?

E: ... is the part that Ramsey Clark has said doesn't exist, that is, the conspiracy part of it. Ramsey Clark says there's no conspi... - well, of course Ramsey Clark said this about all of them.

C: He said that about everybody.

E: As a matter of fact I think he's got a little record he puts on every time something happens. He said it about the John Kennedy assassination, he said it about the Martin Luther King assassination, he said it about the Bobby Kennedy assassination and about the Cleveland riots - not riots, the Cleveland shootings. No evidence of conspiracy. There has been evidence of conspiracy in all of them.

C: In all of them, yes.

E: So I don't pay too much attention. But anyway, the fact of the matter - I'll make you a prediction. You ready for this?

C: Yes.

E: Okay, America. Here comes a prediction. I predict that with the next - within the next two months you will see, hear or read something relating to the Bobby Kennedy assassination that will snap your eyes open ... I've heard rumors about it already ... There's something hot in the wind, I'll tell you that.
