## L.A. Coroner Cleared in Kennedy Autopsy

### Los Angeles

Dr. Thomas T. Noguchi, ousted Los Angeles County coroner, was cleared yesterday of a charge that he bungled the autopsy on assassinated Senator Robert F. Kennedy.

The county not only withdrew the complaint against the 42-year-old pathologist, but also stipulated that the post mortem "was a superior autopsy."

The charge was among several that led to Noguchi's dismissal last March 18 from the \$41,104-a-year job. Noguchi is fighting the dismissal before the county civil service commission.
