From column by John J. Miller:

.....

Author Mark Lane, who's one of the leading advocates of "the conspiracy theory" in the assassination of John F. Kennedy, has now set up an office in Washington overlooking the US Supreme Court. Lane says he's co-ordinating a nationwide movement to bring public pressure to bear on Congress to launch a new probe into the JFK murder. Lane insists he's been getting more & more new informations strengthening his already widely published beliefs that Lee Harvey Oswald was set up to take the rap for the assassination and that others were involved.
