HAVANA AP - The Cuban government announced Sunday it has captured six anti-Castro agents who landed in a boat near Bahia Honda in Pinar del Rio Province.

Officials said an agent of the U.S. Central Intelligence Agency also was captured in Matanzas Province. They did not say when the arrests were made.

MIAMI, Fla. AP - Anti-Castroites captured in Pinar del Rio Province in west Cuba were presented at the conference of the leftist Organization of Latin American Solidarity in Havana as proof of "unscrupulous activities carried out by imperialism against Cuba," Havana radio reported Sunday.

The broadcast monitored in Miami said the agents had reached Cuba in a boat armed with a submachine gun, rifles, pistols and bullets poisoned with cyanide.

They also had 140 pounds of explosives, hand grenades, two radio transmitters and a radio receiver.

It quoted the prisoners as admitting that they had planned to carry out sabotage, assassinations and terrorism, and encourage revolts in the mountains of Pinar del Rio Province and in Las Villas Province.
