Faulty Part Blamed For Reuther Crash

WASHINGTON — (UPI) — Labor leader Walter Reuther died when the pilot of his plane was lured below a safe

Reuther, 62, head of the clump of trees and crashed.
United Auto Workers Union; Investigators found the his wife, her nephew, and a lot's altimeter and an exami-friend of Reuther's died along with the pilot and co-pilot when their small chart-ered jet crashed May 9 while one part was installed upside attempting a night landing at down,"

Pellston, Mich.
In its report, the National Transportation Safety Board said the twin-engine Lear jet clipped trees on a hilltop two miles from the runway, but the pilet was able to keep the plane was lured below a sare altitude by faulty altimeter in which parts were missing and one part was installed upside down, safety investigators said today.

Sala Clipped trees on a hilltop two miles from the runway, but the pilot was able to keep the plane airborne for one-half mile before it hit another alumn of trees and crashed.

Investigators found the pilot's altimeter and an examination showed "some incor-
