Mr. James D. White

Mill Valley, Calif. 94941

Dear Mr. White:

Thank you so much for your letter of December 20th and generous check. We can certainly use the moral and financial help.

I understand about the AP. You might, however, wish to meet with Bill Turner, also of Mill Valley (925 Vernal), and very knowledgeable about the assassinations. He is on our Board of Directors and most discreet. You could work together on certain projects.

Again, thanks for writing.

Best wishes for 1970.

Sincerely,

Bernard Fensterwald, Jr.
Executive Director

The Committee's work is premised on the following assumptions:

The Committee shall currently concentrate on the Kennedy-King-Kennedy assassinations, leaving open its options, however, on several other mysterious deaths.

As to the assassination of President Kennedy, there was a conspiracy in Dallas; and the most pressing problem at the moment is to positively identify the several "actors" in Dealey Plaza.

As to the King killing, James Earl Ray appears to be either a hired gunman or a "patsy", all of which means a conspiracy.

As to the Robert Kennedy killing, there are footprints which point toward conspiracy; however, these footprints appear not to be under investigation by law enforcement; hence, we shall investigate them.

As to a possible inter-connection between the three slayings, the most that can be said at present is that there are a number of parallels in the cases which might indicate a common modus operandi which normally would be subject to official scrutiny.

The Committee will cooperate fully with all law enforcement and looks forward to the day when a proper investigation will be made by the authorities.
