

27 Sep 68

PS - You seem fated to receive nothing from me but PS's (PSs?), but actually I've started at least three letters which - story of my life - had to be abandoned in midpage to be finished another day and then torn up with a new start. This particular PS is to finally thank you for the clippings, particularly that from St. Petersburg Times 28 Nov 63, on Dr. Shaw's statement that a bullet was removed at Bethesda. Whether or not he's correct about this, it really fills a hole in the file; had heard vague hints but long ago had given up hope of ever finding it in print. Thank you, too, for a clipping (St. Petersburg Times 29 Jun 67) sent on to us by Coral some time ago - didn't know then who to thank for it - on a statement made by Gurvich after he resigned from Garrison's staff. We had the NYTimes' version, but part of it didn't make too much sense until we had the fuller quote in your clipping.

Now that things have quieted down in New Orleans we're finally getting caught up - well, more or less - so perhaps my next letter to you actually will be completed in one take AND MAILED.

The next time you write, please tell us how you managed to type on the leader tape of the Ruark-Meagher interview. We can scarcely stand not knowing. Is it leader tape made for the purpose, and if so what does one ask for? Can't find anything like it here.
