New York, May 5 (AP)- Attorney Melvin Belli said today that a state psychiatrist in Texas has found Jack Ruby insane, and that eventually he will be committed to a mental institution there.

Belli claimed that he learned from "an absolutely unimpeachable" source that a state psychiatrist "slipped in to see Ruby and examined him."

The lawyer called this illegal but added that the state soon will move to have Ruby committed as a "psychotic depressive."

...Belli spoke to newsmen after appearing before a committee of the New York Criminal and Civil Courts Bar Association, where he renewed his contention Ruby did not receive a fair trial in Dallas.....
