zpp Dallas, Aug 7 (AP)- Judge Joe B. Brown refused today to approve defense claims of 15 errors in the trial of Jack Ruby, sentenced to death for killing Lee Harvey Oswald, accused as the slayer of President John F. Kennedy.

The action was part of the appeal to the Texas court of criminal appeals, the highest criminal appeals court in Texas unless a constitutional question is ~~involved~~ raised.

Before his ruling, Judge Brown said, "the trial record does not support some of the statements" defense lawyers made in petitioning for a new trial.

The defense attacked Judge Brown's failure to move the trial to another county and his refusal to disqualify prospective jurors who had witnessed the shooting of Oswald on television. They also contended that testimony by Police Sgt. Patrick Dean was untrue and that Judge Brown should not have permitted jurors to hear the testimony.
