

Warren Report Denounced By Leftist as a 'Cover-Up'

The Warren commission's report on President Kennedy's assassination "is the crudest and clumsiest cover-up since the Reichstag fire," Sam Marcy, chairman of the Workers World party, said here yesterday.

The group, which calls itself "a Marxist-Leninist organization," charged that the assassination had been "an attempted coup d'etat by the forces of political reaction, virulent racism and unbridled militarism."

Mr. Marcy asserted that "the

fact that the commission conducted a murder trial in secret is in itself sufficient to invalidate its findings."

He said it had denied "the right of counsel to cross-examine the witnesses."
