

I'd like to believe it probable that Kaiser knows who held Sirhan's biliken, so to speak, but I tend to feel that this was more sophisticated. When the condensation appeared and he said there were some voids in his work, including Arab extremists, I wrote and said I had some such info. He has been close on several occasions and hasn't phoned. Bud says his work is so intense it is endangering his marriage, so Kaiser is serious, anyway. His is a good work, and I do hope he gets the link. I did not know what that clip said. Thanks.
