Dear Js, I would like to be ready for Ha's not finding time to find Diosdado Olam, Jr., or not being able to. His parents live in the SF area. I'd appreciate it if you can find time-meaning also when- if you'd check the phone book and if that shows nothing, the city directory. He also seems to have been a self-appointed infiltrator of the left, hence appears to have been of some interest to the Bureau, from what he had written me. They had been going to his folks to lean, he had written. Best, HW
