7/27-Constable note 23, clips 14-21 arrived today. I get, intermittently, clips for Penab in W.O. They are not complete, but if you have need for another set of affidavits, I have put them in a separate folder and can send immediately with no loss and no trouble. Your copies, of course, much easier for me to handle. I've read and annotated to date (not today's) and will have to postpone rereading for writing. Haven't looked at clips, but something reported from NYC Sat eve by phone is that there was a new item not understood on whether Bailey will represent. Constable, nonsense rhyme remind of pne of possibilities I've asked he checked thru Lib. Cong., Ogden Nash. I am surprised and disappointed that after all this time the promised requests of the LC have yielded nothing, to me at least. LOOK-EMK story on fear reminds I did tell his office of this and poss refs to him. No subsequent reaction, predictable and consistent. Actually, I think if this is correct he is right and if it is not correct quote, it is where his selfish interest lies. I have been pummelling his leg. asst. with notices of things he should know, without response but possibly with effect. But as with RFK, I feel he can't go higher without assassination by those who did it to JFK, for he could not have a moment of peace or freedom with a single unasked or unanswered question about both assassinations. Thanks. Will make notes of any clips warranting. H
