Didn't know of the plots vs the Calif Pacifics stations. The story says Klan, but I suggest thatif Stoner, as your appended notes says, w was counsel, it may have been more than this. The NSRP recruits from the Klan those who find the Klan too moderate. There is considerable overlapping. If your other clips say any more on this, I'd be interested. Eespecially because Jerry Ray is soon coming here from more than a year with Stoner. The Micker column is great. May write him again. Alpha 66 finds glory in endless failure. They are sick people, all of them. They never hurt the Castro regime but sometimes hurt people, a strange variant of the scorched-earth method. H

This is all we have on the Pacifica bombing and alleged plot. Might be a crumb for you in it.

Thanks. But if you see any more, please don't knock yourselves out, for my interest is in atoner, whose role, if any, in the King case is still unclear as it his relationsip (esp. prior) with JERay. There seems to be a present JER respect at least for S, which is anything but warranted by performance.
